

NOT ALL LEDS ARE CREATED EQUAL.

Look for the ENERGY STAR® label.

IOWABEBRIGHT.COM

Receive an instant rebate when you make the switch to ENERGY STAR LEDs

You don't have to be a lighting expert to pick a good LED, you just need to know one thing: Look for the ENERGY STAR label. You will know your bulb has met the industry's highest standards for quality and longevity.

ENERGY STAR LED light bulbs use 75% less energy than incandescent bulbs and last up to 50 times longer.

Now through March 31, 2018, Be Bright in-store rebates make it easy and affordable for Butler County REC members to buy ENERGY STAR LEDs. *To choose a light bulb qualifying for a markdown or rebate, look for stickers, signs or other promotional materials with the **Be Bright** designation on them.*

Where to shop?
